For Part 1 you will create a set of slides that you will present in class and that will be saved as a .PDF for the Part 1 submission with the following information (be brief):

1. Title: Descriptive title of your project
2. Team members:
   - Naureen Bharwani
   - Cody Thornton
   - Sean Mulligan
3. Description: 2-3 sentence paragraph project description - what interesting questions do you intend to answer?
4. Prior Work: What prior work has been done on your idea
5. Datasets:
   - List of datasets to use
   - Where found (URL and who is supplying the data, e.g., NASA)
   - Whether it you have it downloaded (on who's machine)
6. Proposed work: what do you need to do?
   - Data cleaning:
   - Data preprocessing:
   - Data integration:
7. List of tool(s) you intend to use
8. Evaluation: How you can evaluate your results
